

# VIKING CAPITAL

“YOUR CHOICE” CREDIT CARD PROCESSING

For You...  
For Your Family...  
For Your School...  
For Your Charity...

**Delivering Valuable Options and Pricing Transparency to Business**

**“Save-It” Will Save You Money. Guaranteed**

**“Save- It”**  
Viking Capital has the banking relationships and pricing flexibility to reduce your current fees and save you money every time that your business accepts a credit card. We will analyze your current processing history and guarantee to save your business money on all of your credit card transactions; and best yet, your rates will NEVER be raised by VIKING. You will receive 24 hour customer service and process with the largest financial institutions and processing networks available.

**“Take-It”**  
Every time your business accepts a credit card, a sales representative is paid a commission. Viking Capital will match your current rates, and pay you or another individual directed by you the commission earned on your account. (Generally 50% of net fees) This is a great way to generate income or force savings without affecting your current bottom line. This option automatically saves the business 50% of your net fees and your rates will NEVER be raised by VIKING. Please check with your Viking Capital Representative.

**“Take-It” as an Addition to Your Family Savings Plan**

**“Gift-It”**  
Charities and schools have two things in common especially in a recessionary economy. They need donations and they need them now. Businesses can increase their donations and philanthropic endeavors with no additional out of pocket expense. With our “Gift-it” program your charity or local school will benefit every time your business accepts a credit card. Viking Capital will match your current rates and 50% of your net fees will be directed to your charity or school every month instead of going into a salesperson’s pocket. Your rates will NEVER be raised by VIKING, and your school will realize a perpetual donation from your business.
